

From left to right: General Vice President Sito Pantoja, District 141 President Mike Klemm and United Airlines Executive Vice President of Human Resources Mike Bonds sign the recently ratified IAM-United contracts.

DL141 Update, April 26, 2016:

The IAM District 141 Negotiating Committee and Transportation Department officials traveled to Chicago yesterday to sign seven recently ratified contracts at United's headquarters at the Willis Tower.

The five-year deals ratified by over 80 percent of all votes cast for all agreements on April 15th. The accords provide industry-leading pay, job security, retirement benefits, among a host of other improvements, which included a \$100 million lump sum payment.

"Machinists at United are back on top where they belong," said General Vice President Sito Pantoja. "I am proud of IAM District 141 members for sticking together and getting the contracts they truly deserve."

"I'm proud to put my signature on these agreements," said IAM District 141 President Mike Klemm. "Now, we must be vigilant in enforcing our contracts and continue to build internal strength and unity to prepare for our next round of bargaining at United in 2020."
