**AMERICAN WORKERS
ARE WORTH IT**

AMERICAN AIRLINES WORKERS HAVE SACRIFICED THEIR GOOD AMERICAN JOBS, WAGES, THEIR HEALTH CARE, AND THEIR BENEFITS FOR THE GOOD OF THE AIRLINE.

NOW, EXECUTIVES WANT TO ELIMINATE THEM ENTIRELY.

During **several previous bankruptcies** bankruptcy, AA Fleet Service **employees** made painful sacrifices to save the company they love. Their efforts paid off - today, their airline is making billions again. Yet, Fleet Service workers are being forced to make even more concessions, giving up even more. In fact, executives are now demanding the power to simply sell the jobs they have sacrificed so much for - to low wage contractors **and overseas vendors**. All at a time when these workers are creating record profits **for the company**.

Tell American **Airlines** to keep the men and women that have made the airline more profitable than it's ever been. American workers are worth it.
