

IAM TRANSPORTATION SENATE TARGET LIST/INFO

The following list is of Republican Senators who represent IAM members in a Transportation Department airline hub city, are in a close race or both.

The strategy is to mobilize IAM members at the grassroots level to contact these senators and demand that they support the extension of the Payroll Support Program in the next coronavirus pandemic relief bill.

The importance of this effort cannot be understated and must be a priority for the entire Transportation Department. If there is no extension of the PSP, then we are likely to see tens of thousands of IAM members furloughed, which would cause great harm to IAM members, their families and their communities.

The first link following the senator's name will give all the contact information about the senator and the senator's biography. This information is useful if an IAM member decides to call the senator's office, either in DC or at one of the senator's home state offices.

The second link takes the user directly to the IAM Action Alert and the user can directly email the senator from there using the prepopulated message.
