Let's End This Pandemic

This virus can't hide from all of us.

The virus is sneaky. When it's in stealth mode, it is almost impossible to find. It will slink past our defenses like a coward, only to claim the lives of our loved ones without warning, before fading back into the shadows once more.

The only way to beat this virus is to take away its ability to hide. Once it has nowhere to run to, it will die. That means getting vaccines to everyone - so that it can't use our bodies to launch an attack against our families ever again.

Learn how to get vaccinated. Help others get vaccinated.
Let's kill this virus for good.
