### NOT OUR FAULT; MANAGEMENT NEEDS TO GO

### The Best and Worst U.S. Airlines of 2021

The overall performances of the largest U.S. airlines on the WSJ scorecard, from 2019 to 2021

\*Tied in 2019 †Tied in 2020 ‡Tied in 2021 | Sources: Anuvu; Transportation Department

Over the last two years, JetBlue management has failed our company. Our operational performance is now **DEAD LAST**. Why?

JetBlue bosses refuse to acknowledge the reality that they **MUST INVEST IN US**. Instead of shortchanging us, management should offer us among industry top wages, benefits and working conditions. By doing this, more GO Crewmembers would hire on and stay on. We wouldn't be working so short staffed, which kills the operation.

But JetBlue bosses don't get it. They will continue to nickel and dime us. That's a fact. We've experienced it for years.

The only way we can achieve change and help our airline is by unionizing. Then, and only then, we'll be able to make this a solid middle-class job. Having a legally binding contract and the right to negotiate is the change we need.

By unionizing we can fix our airline because it's pretty clear management can't!
